

Starting school

I am starting school.
I am going to play with lots of different
toys and make new friends.

My grown ups will bring me to the
classroom door.
My teacher will be waiting to say hello.

Saying goodbye

I will wave goodbye to my grown up.

My grown up will wave goodbye to me.

They will come back to get me when I have finished having fun at school.

What I need for school

I need a coat, with a hood, that I can zip up by myself.

I need a bag with some spare, labelled uniform inside, just in case.

I need to wear black school shoes that I can fasten by myself.

I will hang my coat and bag on my peg and go and play with my friends.

Having fun at school

The school grown-ups are very smiley and kind. They are looking forward to spending time with me.

They will make sure I have some fruit and a drink of water in the snack area, so I won't have to bring my own to school.

Time to go home

At the end of my school day, my grown up will come to collect me. They will wait in the playground until I am ready.

The school grown-ups will make sure I have all my things.

They will open the door so that I can see my grown ups and tell them how much fun I have had.

I can't wait to go back and play at school again!
